

Regional Water Conservation Program Work Group Report

1. Implement an outreach program;
2. Payment for conservation of historically unused permitted water;
3. Offer incentives to industries for their excess capacity;
4. Build flexibility in the participant agreements;
5. Provide a settlement opportunity for over-pumpers;
6. Offer incentives to promote landscape conservation during peak demand;
7. Create a conservation program for exempt well owners;
8. Explore partnerships with land trusts;
9. Target conservation measures to producers that use flood irrigation.
